Work Experience

🔵 Developer @ IPHIGAMES
2022 - 2024

- Delivered two software suites (AR, VR, touch screen, and web apps) for municipalities in Crete and Peloponnese.
- Built three websites for the Tomako Group of Companies using Next.js and Cloudflare Stream.
- Led and delivered a Unity WebGL project for car leasing company SIXT.
- Developed a VR treadmill installation for OPAP, with parallel projection to a 6x3m video-wall.
- Contributed to Greece's largest projection mapping project, "**Magic Christmas Carpet**" using 3 depth cameras and 3 4K projectors over 180m².
- Assisted QA for internal titles Skaramazuzu and Haunted Bloodlines.
- Assisted the Lead Developer integrating student interns into the company.
- Supported local game development events, delivering talks and showcasing our games Abtos Covert and Skaramazuzu.

Related Experience

🔵 Game Programmer @ Team Abtos
2021-2024

- Developed and released Greek horror game "Abtos Covert" on Steam along with 3 other team members.
- Programmed and integrated various systems, including the Main Menu, Photo Mode, Subtitling/Localization System.
- Did regular quality assurance and build testing.
- Managed build delivery to players through Steamworks.

🔵 Lead Developer @ eduapps.gr
2020-2021

- Developed two test prep Android applications for the Panhellenic exams (SAT / GCSE equivalent), amassing a combined 15.000 downloads with a 4.9/5 rating on the Google Play Store.
